cha1n eyes on th1s f(y to make 1t a (1tt(e wou(d be a (ot offun to exp(ore the many poss1b(e var1at1ons that done to th1s f(y and st1(( be true to the bas1c des1gn. That sounds great top1c for another t1me.

## **Materials**

Mustad 34007 size 2 - 2/0
Tan craft fur
under fur dubbing
dumbbell eyes or equivalent of your choice

## **Tying Sequence**

**Step 1** (left) Tie in thread behind hook eye and lay a thread base back to above the barb and then back to a position about an eighth of an inch from the eye of the hook. Apply Flexament to thread base.

**Step 2 (right)** Attach a pair of medium dumbbell eyes and apply more cement. Select and prepare a craft fur tail that will be about one and one half times the hook length and tie it in on top of the hook behind the lead eyes. Add barring with a brown sharpie.

**Step 3** over from and tight

eyes and

(left). Form a dubbing loop at the base of the tail. Use the under fur left preparing the tail to sparsely fill the dubbing loop. Spin the loop good and wrap forward crisscrossing around the tie off.

Trim and whip finish then add a little head cement. Use a Velcro hooks to brush

toothbrush or out the body.
